Student Services Online

All students now have 24/7 access to Student Services Online. The system allows students online access to view, print, or save their financial and academic records including degree plans and transfer of credit reports.

Wireless Network (AU Wi-Fi)

The network key for the AU Wi-Fi campus wide system available to all current students and faculty has changed for the Winter 2012 session. Get the new key from the LRC (Learning Resource Center) and SSO (Student Services Office) in Garland and Frisco. A network key and acceptance of the University's wireless usage policy are required by all users. The same key will work for both campuses.

May 17, 2012

Spring Session 2012 Dates

Special Recognition

The Honorable Ronald E. Jones, Mayor of Garland, recognized Amberton University for 40 years of educational excellence in a special ceremony held Tuesday, November 1, 2011, in the City of Garland Council Chambers. Dr. Melinda H. Reagan, President and representatives of the University's Board of Trustees were present and accepted the Proclamation from Mayor Jones.

Inclement Weather

The University will not broadcast class closings over radio or television....However, the University will announce any closing over its own telephone system and on the University website at www.Amberton.edu. Usually, such an announcement will come no later than four hours in advance of the beginning of classes. For the most part, the University does not close unless conditions are extremely hazardous.

AU Policies and Rules

Unsupervised Children—Amberton University has a policy that: (1) forbids any student or employee to leave minor children unsupervised in the facility or on its property, and (2) prohibits children in classrooms. This policy is based upon the belief that proper care and protection of children take precedence over educational, vocational, or social interests.

Smoke-Free Environment—Both the Garland Campus and the Frisco Center are smoke free environments. Smoking is permitted only at designated areas outside each building. All smoking areas must be maintained litter-free.

Handguns—Licensed or otherwise, it is illegal to have a handgun in your possession while on Amberton University property. The law that authorized the licensing of concealed handguns in Texas did not change the law that bans concealed handguns from being brought onto a university campus.
